

CHEMOPAL 114

Fulling agent and detergent for wool and its blends. Highly effective wetting agent.

Chemical-Physical Characteristics:

Composition:	Mixture of polyglycol ethers
Physical aspect:	Viscous fluid
Ionic charge:	Non ionic
pH (5% sol.):	7 ± 0.5
Solubility:	Good
Storage stability:	Excellent

Properties:

CHEMOPAL 114 is an excellent fulling product for wool and blended products, which has a swelling and cleansing action, which is well suited to the majority of processes and fulling machines.
 CHEMOPAL 114 has a strong wetting power (between 20 and 70 ° C) and can be used in all scouring or in enzymatic treatments, preliminary to dyeing.
 It has no reserving action towards the polyamide fiber and therefore all the dyeing problems deriving from it are avoided.

1

Applications - Doses of use:

Use as fulling agent: 10-20 g / L
 Use as a wetting agent / detergent: 0.5 - 2 g / L

Indicative doses, to be checked depending on the and machinery in use.
