

CHEMOFOL 210

Fulling agent for strong fulling. Detergent for general use.

Chemical-Physical Characteristics:

Composition:	Mixture of polyglycol ethers
Physical aspect:	Viscous fluid
Ionic charge:	Non ionic
pH (5% solution):	4.5 ± 0.5
Solubility:	Good
Storage stability:	Excellent

Property:

1

CHEMOFOL 210 is an excellent fulling / accelerating fulling product suitable also for very heavy pieces. In case you need to increase the swelling effect, we recommend adding BIOPAL 377, which provides a general softening by reducing the formation of dead folds.
 It has no reserving action towards the polyamide fiber and therefore all the dyeing problems deriving from it are avoided

Applications - Dosage:

Use as fulling agent: 10-30 g / L

Indicative doses, to be checked depending on the fabric and machinery.
