

## FILOIL 261

Pseudo-soluble ensimage, free from Alkylphenol Ethoxylates, particularly suitable for wool and wool / synthetic fiber knitwear.

### Chemical-Physical Characteristics:

Appearance:	Clear liquid
Color:	Straw yellow
pH (solution 10 g / l):	6 – 6,5

### Properties:

FILOIL 261 is a quality product containing humectants and antistatic agents which give it an excellent dispersion of electrostatic charges.

FILOIL 261 has a good lubricating and cohesive action, at the same time it is perfectly eliminable in scouring baths containing non-ionic detergents.

The FILOIL 261 also allows a lower frequency of cleaning of the machines.

### Dosage:

6 - 8% mixed with water as required.
